Hybrid – Blended Learning Text Book

Practical Exercises

The teacher will facilitate these activities by showing you the e-learning module for this lesson via http://www.psscive.ac.in/Employability_Skills.html. The module will include videos and e-content for the above topics as well as detailed instructions for some activities below.

Initial thinking activity

After watching the initial video in the e-learning lesson for this topic write down how could Rohit understand something was wrong with Amar? Can you understand how your friends are feeling even when they do not tell you anything?

Activity 1

Role-play — Non-verbal Communication

Materials Required

Notebook, pen

Practical Exercises

The teacher will facilitate these activities by showing you the e-learning module for this lesson via http://www.psscive.ac.in/Employability_Skills.html. The module will include videos and e-content for the above topics as well as detailed instructions for some activities below.

Initial thinking activity

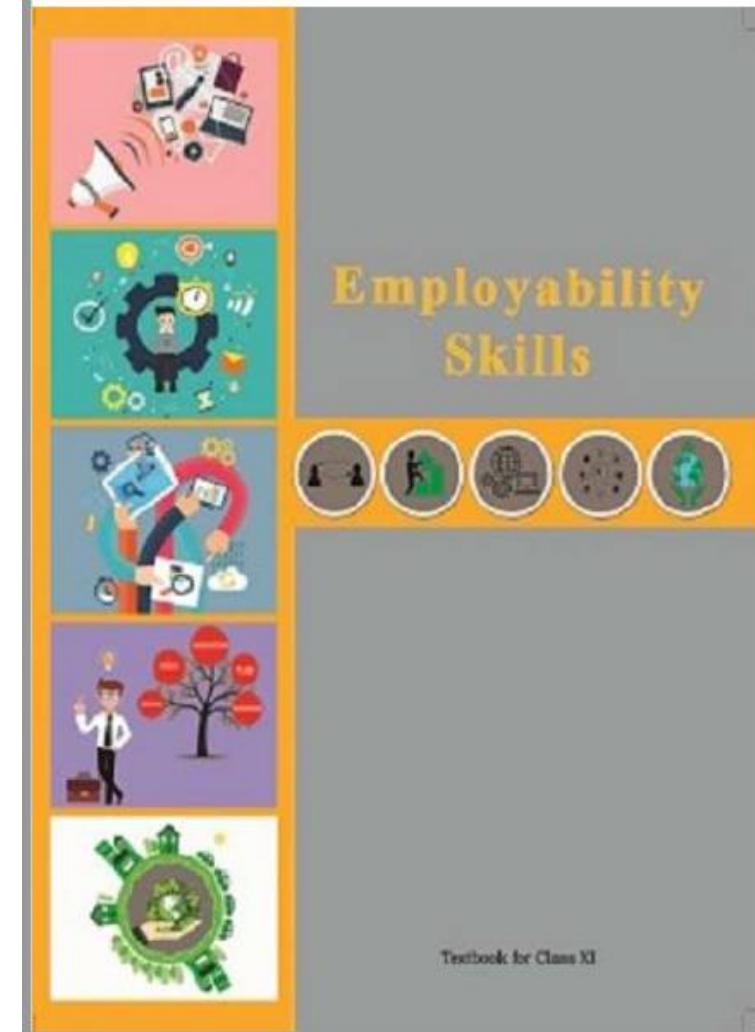

After watching the initial video in the e-learning lesson for this topic, answer the following question: Why is it important to communicate clearly and effectively?

Activity 1

Role Play on Communication Process

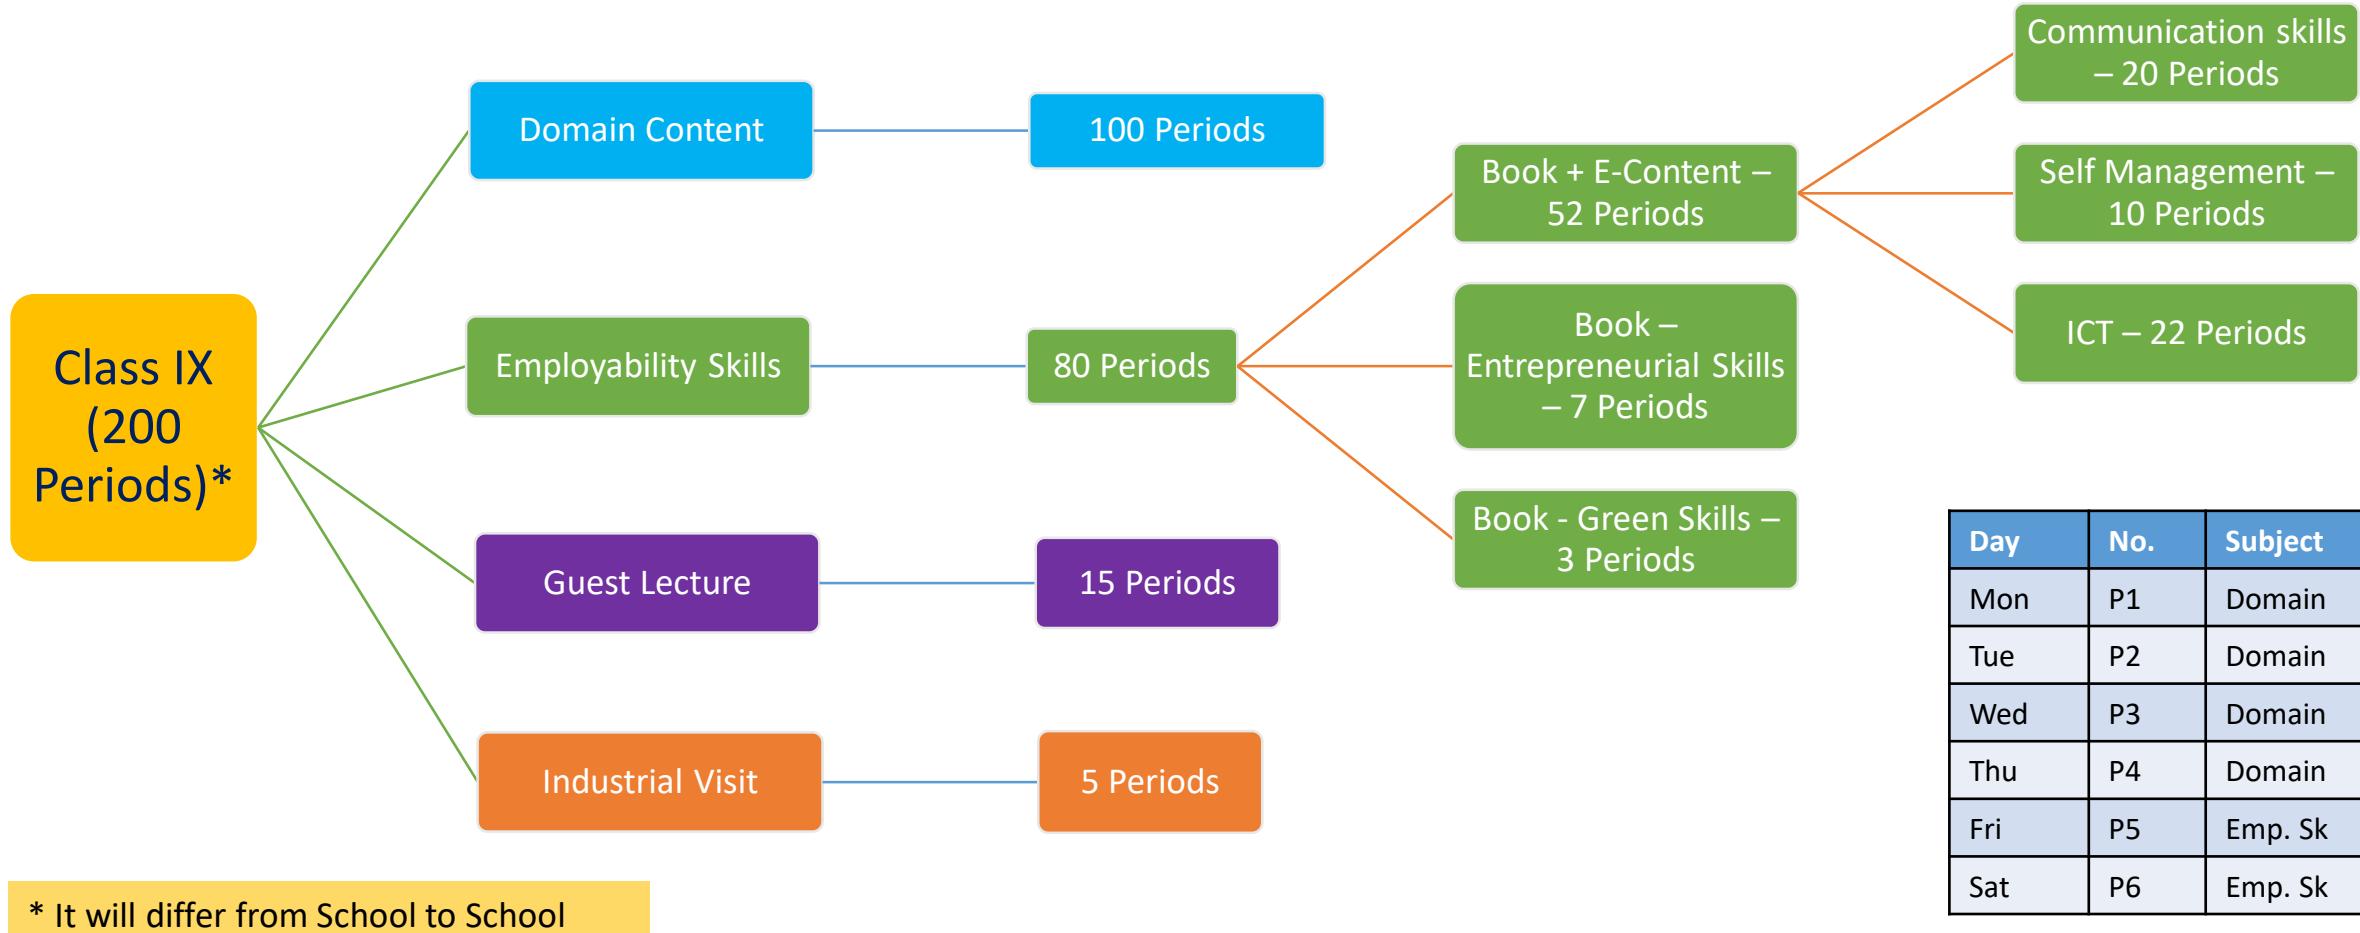

Procedure

- Form groups with three students in each group.

Fundamentals - Content delivery

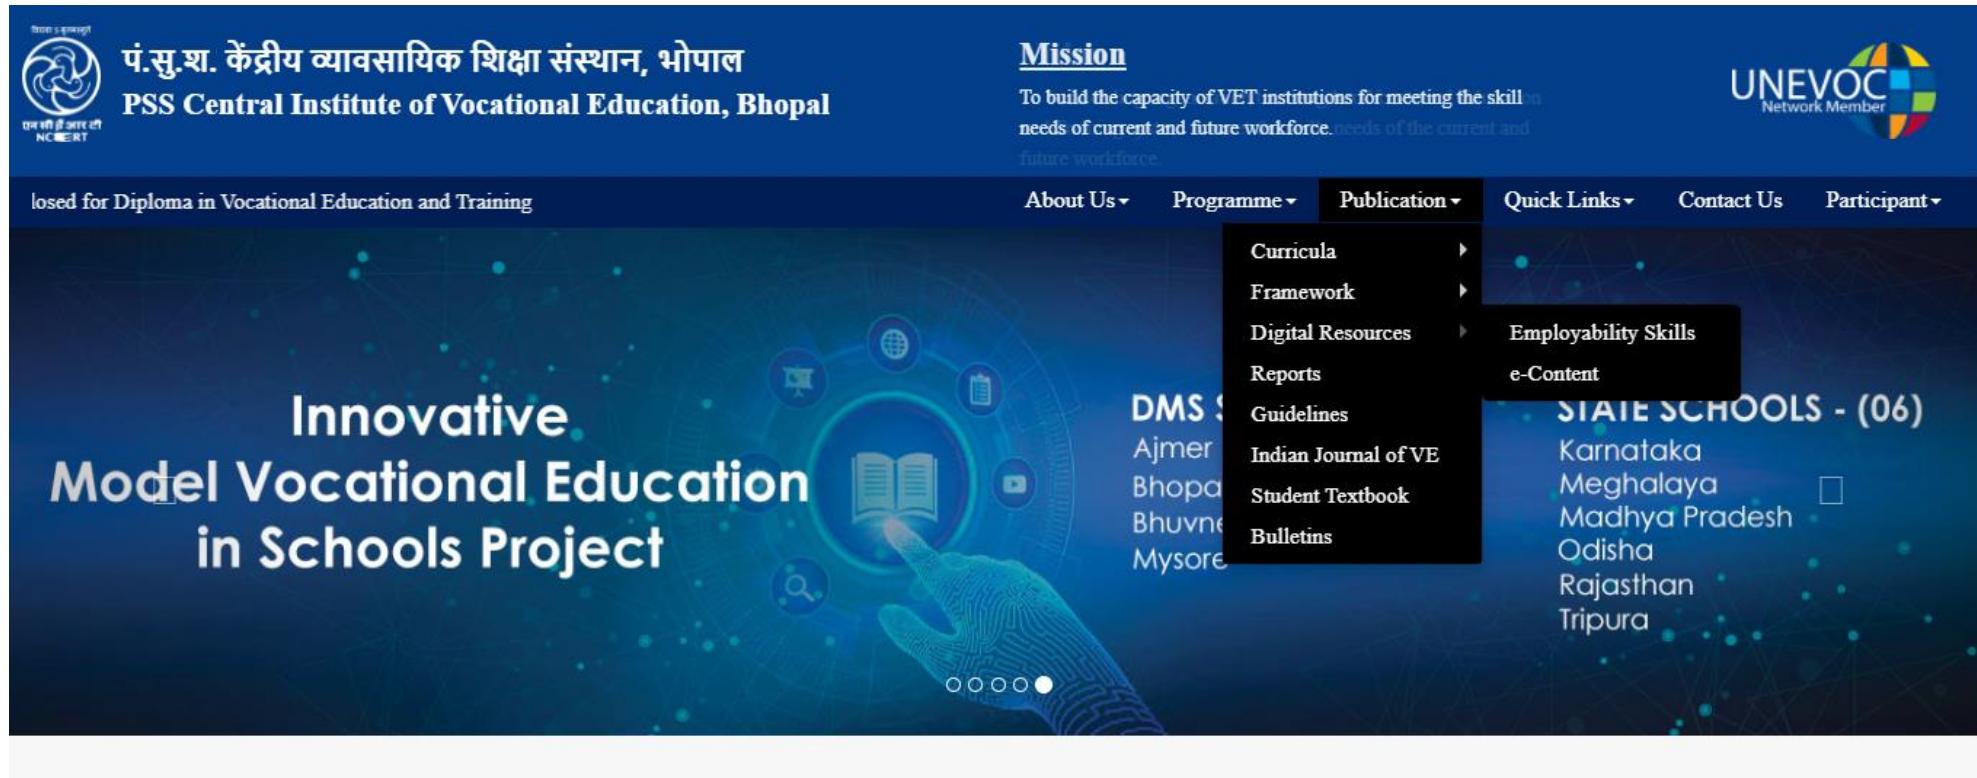

Teacher Login creation

Facilitator can create login in PSSCIVE portal by following these steps

Go to www.psscive.ac.in

Click on **Publications** then select **Digital Resources** then click on **Employability Skills**

The screenshot shows the official website of the PSS Central Institute of Vocational Education, Bhopal. The header includes the NCERT logo, the institute's name in Hindi and English, and its accreditation by UNEVOC. The main navigation menu has links for About Us, Programme, Publication, Quick Links, Contact Us, and Participant. The 'Publication' menu is expanded, showing options like Curricula, Framework, Digital Resources (which is currently selected), Reports, Guidelines, Indian Journal of VE, Student Textbook, and Bulletins. A sub-menu for 'Digital Resources' lists Employability Skills and e-Content. On the right side of the page, there is a section titled 'STATE SCHOOLS - (06)' listing states: Karnataka, Meghalaya, Madhya Pradesh, Odisha, Rajasthan, and Tripura. The central banner features the text 'Innovative Model Vocational Education in Schools Project' over a background of a hand interacting with a digital interface.

Step 5:-

Now the trainer will get an email from the site for email verification. Once he/she will do the verification he/she can use the login created.

First screen (when you login to the site)

Your courses will appear once they are created. You can use dashboard to track the progress of each of your courses. Please navigate to [courses](#) tab to get started.

Feedback

Batch creation

It is required to create batch for each class which trainer handles.

Minimum Information required to create the batch:

- ✓ Batch Name (Academic Year-Trainer name- Class Name-Domain Name) Max 30 Characters
- ✓ Number of students in the class
- ✓ Batch start date

Batch Code gets generated automatically .. This need to be **shared with students to join the batch**

Student Batch creation - Overview

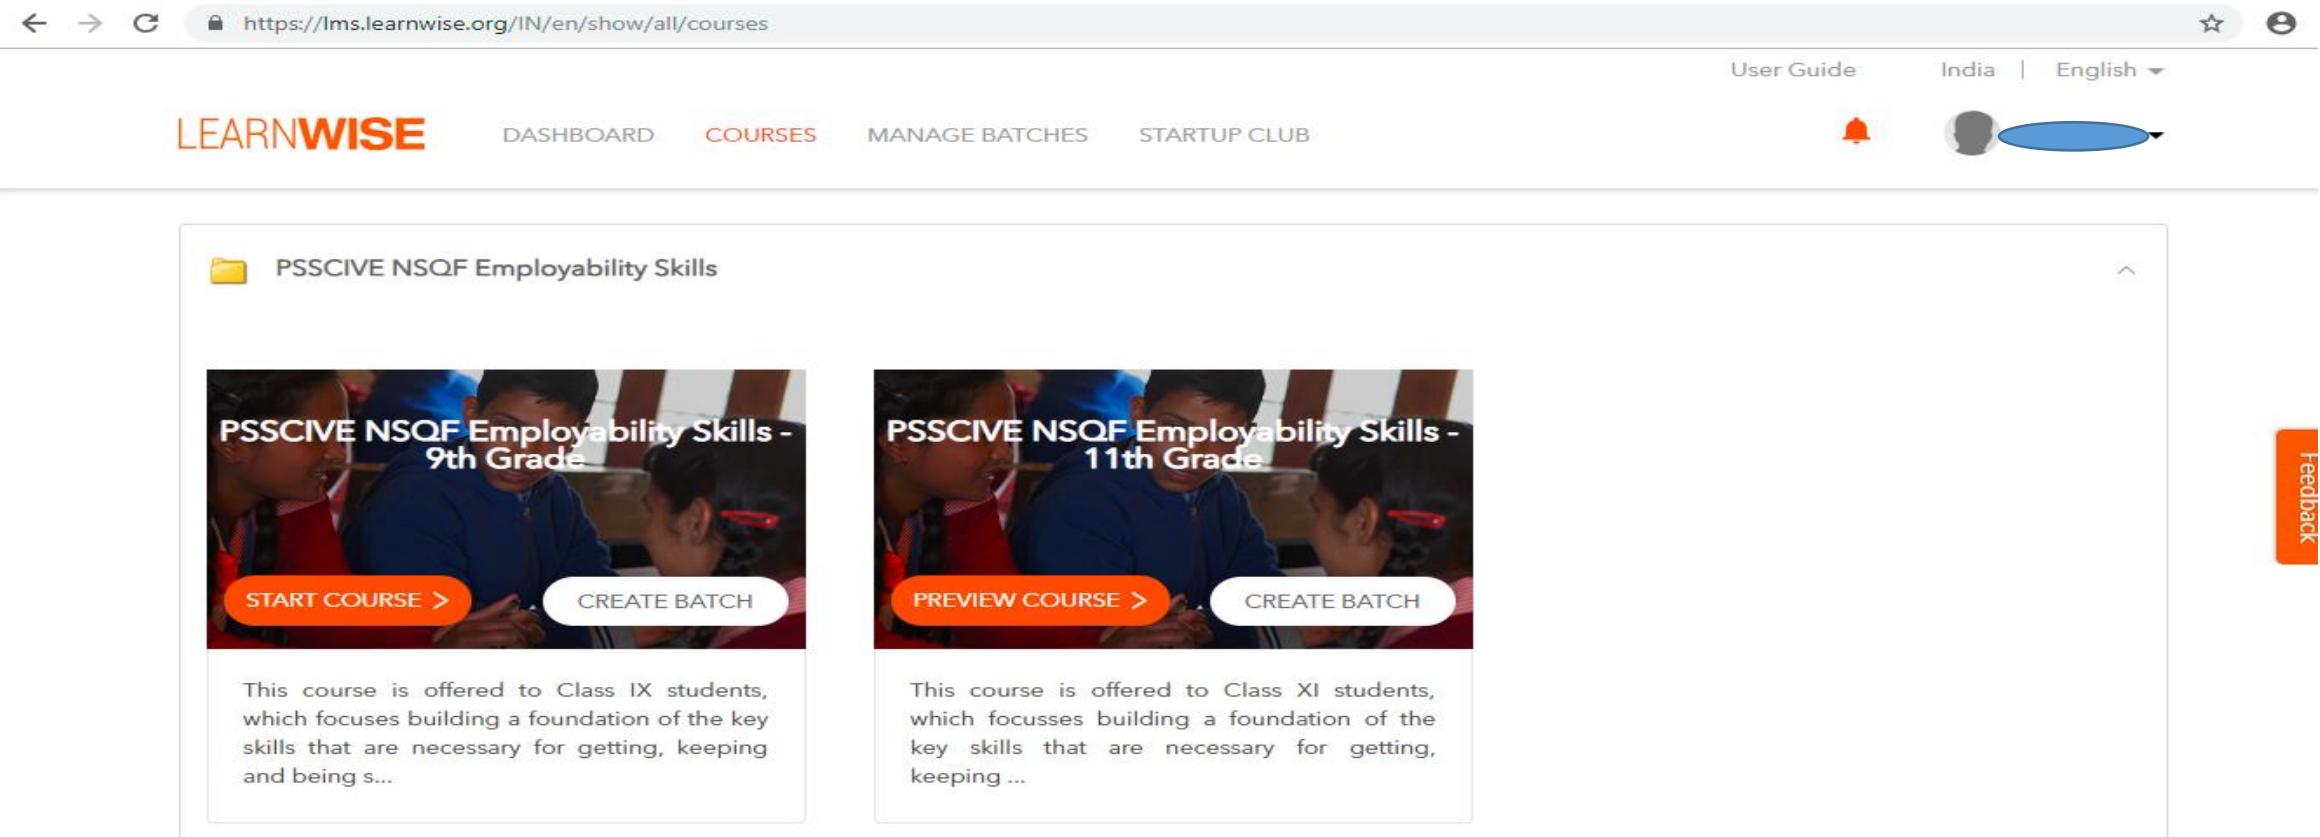

- System will auto generate batch IDs when ever a new batch is created
 - The format of the batch ID is AAAA-YYMM-AAAA where first 4 characters represent the institute, next 4 digits are the year and month of teaching start date and the last 4 alphanumeric characters are auto-generated code
- Faculty notes down the system generated Batch ID, shares it with the students who will be a part of that batch
- Student uses the Batch ID to register for the batch
 - Student enters the Batch ID received to register for the batch
 - System validates the ID, if it matches a batch then the details of the batch like course discription, start date and faculty details are displayed along with a confirmation option
 - Upon affirmative confirmation the student is enrolled to the batch and the course appears on the list of enrolled courses

Batch Creation flow (Steps)

Go to courses then the following screen will appear and you will be able to create the batches from this option.

Now click on create batch option from the 9th/10th/11th / 12th class.

PREVIEW COURSE > **CREATE BATCH**

This course is offered to Class XI students, which focusses building a foundation of the key skills that are necessary for getting, keeping ...

Step 3:

- In this step we have to choose batch name. Ideally the batch name should be a logical name.
- If you teach IT and Retail trades in 9th and 11th class in your school, please create this batch name e.g. **2020-21-Class IX-IT**
- Also specify the number of students you have in that batch
- Then select the start date. **It will not allow back date**. So even if you have started the batch earlier you can only today's date or any name in coming days.
- After entering these details click on create button.
- It is not optional to enter student names/details, just enter count of students in each class while creating the batch

The screenshot shows a web browser window for the LearnWise platform. The URL in the address bar is <https://psscive.learnwise.org/#/IN/en/user/lmsCreateBatch/19789>. The page title is "Create Batch". At the top right, there are links for "User Guide", "India | English", and a user profile icon. The main content area has a header "PSSCIVE NSQF Employability Skills - 11th Grade". Below it, a "Batch Details" section contains four input fields: "Enter batch name *", "Number of students in batch *", "Select Date *", and two optional fields "Class room (Optional)" and "Activity room (Optional)". At the bottom right of this section are "CANCEL" and "CREATE" buttons. A vertical "Feedback" button is located on the far right edge of the form area.

Fill all the mandatory fields

JobWISE - Core Employability Skills

You will start your venture creation journey in this Basic course. It will take you from a problem/idea to creating a Business Model and finally the Minimum Value Proposition (MVP). The course is divided into 9 lessons and each lesson has 2-4 sessions. Sessions have videos, activities, assignments. As the Capstone presentation, you present your Business Model. Some of you can go further and also present your MVP.
